

PROFESSIONAL EYELASH EXTENSIONS

Have you ever wanted eyelash extensions but wanted them to look luscious and natural? Semi-permanent, synthetic eyelash extensions can give you longer, thicker and natural looking eyelashes. Single strands of synthetic lashes are individually applied to your own natural lashes. They are safe to wear in the shower, when sleeping, exercising and swimming.

Eyelash extensions are perfect for every day or that special occasion, but to work effectively they have to be applied to existing, natural eyelashes.

Full Set of Eyelash Extensions - From 2 – 3 Hrs

A full set usually means about 50 single lashes being added to each eye and because they are black they eliminate the need for mascara. They come in a selection of lengths which means you can choose the desired finished look. If you do not want to top up your eyelash extensions, it is recommend you return every 6 weeks for a full set.

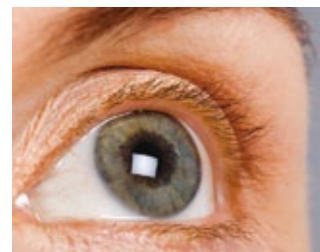

Half Set of Eyelash Extensions - Approximately 1 Hr 30 Mins

If you do not wish to indulge in a full set of eyelash extensions we offer a half set.

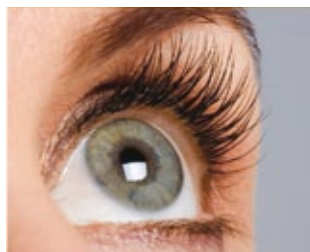

Top Up of Eyelash Extensions - Approximately 1 Hr 30 Mins

If you wish to top up your eyelash extensions it is recommended you do this 3-4 weeks after your initial application.

Removal of Eyelash Extensions - 15 Mins
